We were the only Indian Machine Manufacturer who had participated in this show and had displayed two 'Smart' Technologies i.e - 'Super-optimised machine for 'Hard Turning' with IoTQ (Internet of Things for Quality) and SmartCorrect Gauging Stations as a 'Plug & Play' Technology for retrofitting with existing CNC machines to make them smart.

We are glad to inform that we have received very good response with inquiries from Dealers, System Integrators & direct customers. Marshall's booth was also covered by the Editorial Director of MMS (Modern Machine Shop, #1 Machine Tool Magazine in USA since 1928) who appreciated our technologies.

This is for your information and record.
